SENIOR TECH ARCHITECT

E-commerce architecture and integration for international brands.

When a brand sells in several countries, its e-commerce platform has to fit with every system already around it. That's my job. I design the architecture and the integrations at Deloitte Digital, get them live in EMEA and US markets and govern the releases after go-live.

18 years in software, the last six as a technical architect on Salesforce B2C Commerce. 5 international brands launched so far. Before commerce I built insurance and pension portals, where a bug quickly becomes a compliance problem. The habit stayed.

EXPERIENCE

Manager, B2C E-commerce and Technical Architect

Oct 2023 – present

Deloitte Digital · Milan, Italy

Lead architect for B2C e-commerce programmes of international brands, from architecture to go-live and run.

- Designed the Salesforce B2C Commerce architecture for an international consumer brand's direct-to-consumer platform across EMEA and US markets, integrated with ERP and CRM.
- Led technical delivery of a new e-commerce platform for a leading European online retailer: large multi-brand catalogue, high-volume order flows, distributed team.
- Defined a multi-brand, multi-country platform for a global manufacturer's European markets: one shared core, releases governed across instances.
- Run architecture reviews, estimates and technical risk across programmes; mentor the technical leads.

Lead Technical Architect

Dec 2022 – Oct 2023

Alpenite s.r.l · Venice, Italy

- Led the architecture team on Salesforce B2C Commerce projects for retail and consumer brands.
- Set the team standards for integrations, CI/CD and code quality.
- Reference architect in pre-sales: solution design, effort estimation and technical due diligence.

Technical Architect

Mar 2020 – Dec 2022

Alpenite s.r.l · Venice, Italy

- Designed and delivered B2C commerce platforms on Salesforce Commerce Cloud: multi-site storefronts and integrations with ERP, PIM, OMS, payment and logistics services.
- Introduced CI/CD pipelines and automated quality gates across the delivery teams.

Full-Stack Developer

May 2016 – Mar 2020

Previnet s.p.a · Treviso, Italy

- Built and maintained web platforms for insurance and pension providers: customer and policy portals, back-office tools and integrations with core systems, in a regulated, high-reliability context.

Full-Stack Developer & System Administrator

Aug 2008 – Apr 2016

Pellegrini s.p.a · Venice, Italy

- Developed internal business applications and ran the company infrastructure: servers, networking, backups and security.

SKILLS

Composable & headless architecture · Salesforce Commerce Cloud · SFRA · Integration of complex platforms · API orchestration · Headless CMS · Integration with back-end systems (ERP, PIM, OMS) · CI / CD · Delivery governance · Stakeholder management · Team leadership & mentoring

2008 — **Bachelor's degree in Computer Science**
Università degli Studi di Padova

2004 — **High school diploma in Computer Science**

LANGUAGES

Italian — Native

English — B2

BEYOND WORK

Outdoor sports and slow travel: running, hiking, skiing and exploring Europe by camper van. I'm interested in how technology can support focus, simplify workflows and enable a healthier work-life balance.
